By providing customers with quality customer service and a knowledgeable sales staff, General Pacific is the leading water utility distributor in the northwest. General Pacific, Inc. supplies water utilities of the northwest with metering infrastructures based on Badger and Itron technologies. From basic meters to full AMR systems, General Pacific can help your utility stay on top of industry changes and demands.

General Pacific represents the following suppliers and their product lines. As a regional distributor of the following product lines, General Pacific stocks the products manufactured by these companies for our customers. This makes General Pacific an excellent resource for water utility related products for everyday needs as well as emergency situations.
